raktim.info@gmail.com · www.linkedin.com/in/raktim24
Teacher/youtuber/blogger/Frontend Web Developer/React.js/Redux/JavaScript

Software Engineer with **7+ years of experience** spanning Frontend Development, Fullstack Engineering, and Automation Testing. I have specialized in building scalable web applications and dashboards using **React.js, TypeScript, Redux, Inertia.js, Mantine UI, Styled Components, GraphQL (Apollo)**, and **Node.js**. Proven expertise in **designing complex UI/UX workflows, implementing dynamic filters, reusable components, and driving performance optimizations** for enterprise-scale platforms like Pathfactory.

Strong advocate of **engineering best practices**: applied **SOLID principles, React Testing Library, Jest, Enzyme, and Secure Software Development Lifecycle (SSDL)** standards. Experienced in **mobile (React Native)** and **backend (Node.js, Express, MongoDB, SQL)**, with a focus on end-to-end feature ownership.
Proactive contributor to **innovation and Kaizen initiatives**, recognized with multiple **Bravo Awards, Pursuit of Excellence**, and client appreciation. Experienced **mentor and trainer**, having guided interns, associates, and conducted sessions on **Requirement & Impact Analysis, Risk Assessment, and advanced React concepts**.

Currently leveraging **AI tools like GitHub Copilot and ChatGPT** to accelerate development, improve code quality, and explore emerging AI/LLM integrations. Seeking to contribute as a **Senior Frontend / Fullstack Engineer** where I can combine deep technical expertise, innovation, and leadership to deliver impactful solutions.

EXPERIENCE

19-JUL-2021 – PRESENT

TECHNICAL ANALYST (FRONTEND RESEARCH ENGINEER), SENECAGLOBAL

Projects: Pathfactory Dev, Analytics Dev

- Led the **design and development of enterprise dashboards** (UCL, Goals, Content Play, Campaigns, Buying Signals, PFRI) using **React.js, TypeScript, Inertia.js, Mantine UI, Styled Components**, and **GraphQL (Apollo)**.
- Delivered **New Content Library UX revamp** and **PFRI dashboards** end-to-end, including reusable dynamic filters, advanced table components, and custom pagination solutions.
- Implemented **complex UI/UX features** such as timeline charts, tree-structured grouping, AI-driven content tagging, and advanced filter caching, improving performance and user experience.
- Expanded into **fullstack development**: Node.js services, API integrations, backend dependency analysis, and compliance with **repo-level standards (lb-content, SFDC imports)**.
- Enhanced product quality by adopting **SOLID principles, Secure Software Development Lifecycle (SSDL), and React Testing Library (RTL)** for unit testing and automation.
- Built **personal React Native apps** and introduced mobile development practices, extending frontend capabilities to cross-platform solutions.
- Championed **innovation and Kaizen initiatives**, including dynamic filter optimization, workflow refactors, and UI performance improvements; consistently presented and documented Kaizen ideas.

- Actively contributed to **organizational development**: mentored interns and associates, created question banks for recruitment, conducted Requirement & Impact Analysis and Risk Analysis training sessions, and participated in HR/OD initiatives.
- Recognized with multiple **Bravo Awards, Pursuit of Excellence, and client appreciations** from Product Owners and CTOs for attention to detail, proactivity, and impactful delivery.
- Leveraged **AI tools (GitHub Copilot, ChatGPT, DeepSeek)** to accelerate development, code reviews, and productivity while staying updated with emerging LLM technologies.

TOOLS: REACT.JS, TYPESCRIPT, JAVASCRIPT (ES6+), REDUX, RECOIL, INERTIA.JS, MANTINE UI, STYLED COMPONENTS, TAILWIND CSS, CSS3, FLEXBOX, D3.JS, D3-ANNOTATIONS, NIVO CHARTS, RECHARTS, AG GRID, GRAPHQL (APOLLO), NODE.JS, EXPRESS.JS, MONGODB, SQL, REACT NATIVE, REACT SPRING, REACT DATE, HTML5, RESPONSIVE UI/UX DESIGN, SECURE SOFTWARE DEVELOPMENT LIFECYCLE (SSDL), SOLID PRINCIPLES, UNIT TESTING, REACT TESTING LIBRARY, JEST, ENZYME, SELENIUM WEBDRIVER, GIT, GITHUB, GITHUB COPILOT, CHATGPT, DEEPSEEK, PERPLEXITY, FIGMA (UI COLLABORATION), JIRA, AGILE/SCRUM, KAIZEN IMPLEMENTATION, EXPLORATORY TESTING, BUSINESS COMMUNICATION, REQUIREMENT & IMPACT ANALYSIS, RISK ANALYSIS, MENTORING & TRAINING, CODE REVIEWS, KNOWLEDGE TRANSFER (KT) SESSIONS

01-JAN-2020 – 16-JUL-2021

SOFTWARE ENGINEER (FULL STACK), CERNER HEALTHCARE SOLUTIONS

- Created 50+ Component functionalities for legacy Application using *TERRA FRAMEWORK* for both Functional and Class based components in the web app.
- Written 100+ unit test cases using Jest and Enzyme with 100% coverage for component workflows.
- Worked on UI mockups and implemented the same using React Hooks.
- Took ownership of a single scalable component module and developed the same with 100% visual accuracy.

Tech Stack: React, Redux, Js, Css, Css3, Json, HTML, Eslint, Prettifier, React-dom, React-Router, Vanilla, Jest, Enzyme, GraphQL, SQL, Node, Express, Rest, Fetch, Jenkins, Docker, Webpack, Babel
Tools: VScode, mRemoteNg, Chrome dev tools, Crucible, Jira, Atlassian, FishEye, Github, Git, bash, SVN

01-JAN-2019 – 31-DEC-2019

TEST AUTOMATION ENGINEER, CERNER HEALTHCARE SOLUTIONS

- Written 100+ automation scripts for websites based on Ruby on Rails, HTML, CSS using Capybara and reduced manual time to 60%.
- Contributed to Cerner Page Repository by writing 20 scripts for POM and reduced the Vertical Regression test time to 40%
- Worked on Selenium with Python, Java and automated 80% of client workflows. Also used internal automation tools like Touchstone, Eggplant.

Tech Stack: Selenium Web driver, Ruby, Python, Java, Capybara, Chai, Mocha, Mochawesome, Reports, POM
Tools: Chrome dev tools, path, firebug, firepath, Excel, Touchstone, Eggplant, XML, Tortoise, SVN

01-JAN-2018 – 31-DEC-2018

SOLUTION DESIGNER TEST ANALYST, CERNER HEALTHCARE SOLUTIONS

- Worked on Requirement capturing and technical writing for entire Project and covered 100% client requirements.
- Worked on 200+ test design documents and reviewed 100+ test plans for the Solution.

Tools: Microsoft Office, HP Quality Center, Soarian Quality Measures

18-JULY-2017 – 31-DEC-2017

TEST ANALYST, CERNER HEALTHCARE SOLUTIONS

- Executed 500+ test plans and found 200+ bugs and improved the quality of solution by 40%
- Worked on creating 1000+ test cases for complex workflows and found major issues during load testing.

Exposure: XML, TouchStone, Eggplant, Scrum, Agile, SDLC, Kanban

EDUCATION

JUNE 2017

MASTERS IN COMPUTER APPLICATIONS (MCA), VELLORE INST OF TECHNOLOGY

- **9.15 CGPA overall**
- **Master thesis on Code Optimization**

JUNE 2015

BACHELOR OF SCIENCE (BSC HONS COMP SC), ASUTOSH COLLEGE, CALCUTTA UNIVERSITY

- **60.1% placed in 1st Class**

SKILLS

Frontend:
HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Recoil, TypeScript, Inertia.js, Mantine UI, Styled Components, Tailwind CSS, Flexbox, Responsive UI/UX Design, React Native, React Spring, React Date
Data Visualization & UI Components:
D3.js, D3-Annotations, Nivo Charts, Recharts, AG Grid
Backend & APIs:
Node.js, Express.js, Apollo GraphQL, MongoDB, SQL
Testing & Quality:
React Testing Library, Jest, Enzyme, Selenium WebDriver, Unit Testing, Exploratory Testing, Secure Software Development Lifecycle (SSDL), SOLID Principles
Collaboration & Tools:
Git, GitHub, GitHub Copilot, ChatGPT, DeepSeek, Perplexity, Jira, Figma, Agile/Scrum, Code Reviews, Knowledge Transfer (KT) Sessions
Professional Development & Practices:
Kaizen Implementation, Requirement & Impact Analysis, Risk Analysis, Mentoring & Training, Business Communication

ACHEIVMENTS

- Received **NOTT (Night on the Town Award)** for Automation and Development Project – *Cerner*
- Received **U ROCK award** in Peer Recognition Program – *Cerner*
- Awarded **Pursuit of Excellence – Best Project** for contributions to Pathfactory dashboards – *SenecaGlobal*
- Multiple **Bravo Awards** from Product Owners and Leadership (Pathfactory) for impactful delivery of UCL Summary Dashboard, Goals, Content Play Dashboards, Campaigns, and PFRI UX revamps – *SenecaGlobal*
- Appreciated directly by **senior product owners and CTO** for **UI/UX design, proactiveness, and technical excellence** – *SenecaGlobal*
- Recognized as a **mentor for interns and associates**, contributing to training, question banks, and organizational development initiatives – *SenecaGlobal*
- Consistently acknowledged in performance reviews for **Kaizen contributions, innovation, and collaborative teamwork** – *SenecaGlobal*
